

# VisioUtil – Pulse Reader

## Product Overview

VisioUtil is an application ready Sigfox enabled transceiver allowing to transmit data from utility meters . The device provides connection to national and global network infrastructure for reliable and secure communications

## Product Specifications

### Battery

- Chemistry Li-MnO<sub>2</sub>
- Size A
- Capacity – 2 800 mAh
- Expected Life – 10 Years(Dependent on Transmission profile and environmental conditions)

### Certification

- Sigfox
- ICASA
- CE
- IP 69K

### Communication

- Sigfox
- Embedded antenna
- Class 0

### Dimensions

- L = 93mm
- W = 40mm
- D = 31mm

### Weight

- 200g
